

Blik - Wet Disinfection

Wet Disinfection

Blik e Wet Disinfection sono telai che permettono il lavaggio e la disinfezione delle superfici con l'utilizzo di frange piatte con tasche. Sono leggeri, facili da usare, e aderiscono perfettamente al pavimento, raggiungendo facilmente angoli e bordi. Blik e Wet Disinfection sono ideali per una pulizia professionale ed efficace di pavimenti, pareti e soffitti.

Tris **Microfibra+Poliestere+Cotone**
Microfiber+Polyester+Cotton

- La microfibra permette il distacco delle micro particelle di sporco
- Il cotone migliora l'assorbenza della frangia
- Il poliestere facilita lo scorrimento del ricambio sul pavimento
- Microfibre removes micro specks of dirt, assuring optimal cleaning
- Cotton improves spare-map absorbance
- Polyester helps spare mops slide on the floor
