

Wet System

Wet System

Questo sistema è ideale per una pulizia professionale ed efficace di pavimenti, pareti e soffitti. Utilizzando Wet system, le frange rimangono attaccate al telaio in fase di risciacquo e strizzatura, senza bisogno di piegarsi ed evitando così il contatto con sporco e soluzione detergente. Con Wet System lavori in modo più veloce, ergonomico ed efficiente rispetto ai sistemi tradizionali.

Ergonomico

Efficiente

This system is ideal for a professional and efficient cleaning of floors, walls and ceilings. When using the Wet System, mops with flaps remain hanging on the frame when being rinsed and pressed, with no more bending and very few contacts with dirt and chemical solutions. Wet System works so fast, ergonomic and efficient compared to traditional washing systems
