

AIRLAID

Materiale di derivazione naturale in cui le fibre di cellulosa sono fissate tenacemente da un bagno di lattice e la cui resistenza alla trazione è superiore alla cellulosa tradizionale.

Il materiale si presenta alla vista liscio o goffrato, è morbido al tatto ed estremamente assorbente.

Generalmente nasce bianco e può essere stampato con un'ottima tenuta dei colori,

dovuta al forte coefficiente di assorbimento del materiale stesso; può anche nascere già colorato in polpa. Lo smaltimento corretto è nella raccolta carta
